

Code Monster

Codeer je eigen monster!

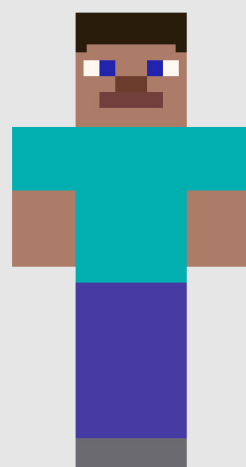

Code, wat is dat?

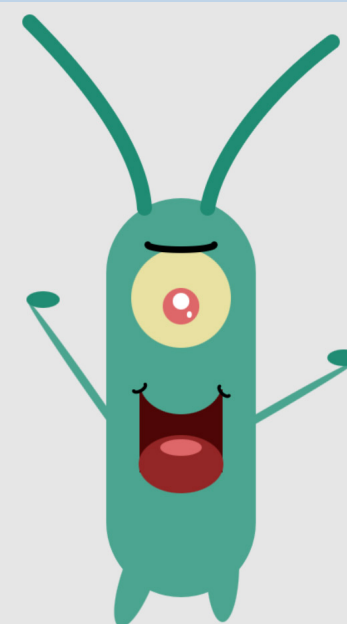

- **Een soort aparte taal voor de computer**
- **Websites, games, apps, digibord, robots...**
- **Code = LEGO, elk stukje code is een blokje om te bouwen**

- **Wachtwoord:** Codemonster!

The background is a solid light blue color. It is decorated with several pink triangles of various sizes and orientations. Some triangles are pointing upwards, some downwards, and some are part of larger geometric patterns. For example, there are two triangles pointing towards each other at the top center, and a larger triangle pointing downwards at the bottom center. On the right side, there is a cluster of triangles forming a star-like shape.

Let's begin!

The background is a solid light blue color. It is decorated with several yellow triangles of various sizes and orientations. Some triangles are pointing upwards, some downwards, and some are pointing to the left or right. They are scattered across the frame, with a higher concentration on the right side where they form a larger, more complex geometric pattern.
